APEXX

BY REPROSCAN

**For Cattle and Equine Reproduction Veterinarians,
Mixed Practice Veterinarians, and AI Technicians**

The **APEXX** is designed to elevate your ultrasound experience. Utilising the trusted foundations of our other models, we designed a unit with improved image quality and increased image viewing options. The Apexx takes image quality to new heights with its **128-crystal probe** and now offers **Wi-Fi capabilities**. Its durability paired with an interchangeable battery ensure that this ultrasound machine will last all day, no matter your working environment. Ideal for the mixed practice veterinarian or AI Technician. For beef applications, the Apexx pairs excellently with the **RAM-mounted 2.0 monitor** or **OJO's Goggles** for high quality image resolution and ease of setup. It can also seamlessly connect wirelessly to a portable device via the **ReproScan Apexx App** — perfect for saving images, comparisons, or training sessions.

APEX
BY REPROSCAN

APEX
BY REPROSCAN

FEATURES

- ✓ Enhanced image quality
- ✓ Available with direct-wired convex or linear probes
- ✓ Wi-Fi capability
- ✓ Interchangeable 5-hour lithium-ion battery
- ✓ Compatible with multiple viewing devices
- ✓ 4 preset exams
- ✓ Rapid zoom
- ✓ Splash proof
- ✓ Freeze and CINE loop options

SPECS

- ✓ 128 crystal probe
- ✓ 4.0 MHz 60mm convex rectal probe (2.0 - 5.0 MHz)
- ✓ 6.5 MHz 60mm linear rectal probe (5.5 - 9.0 MHz)
- ✓ 5.8 GHz 7 channel wireless sender
- ✓ VGA 5 VDC video out port with LEMO
- ✓ 71-239 mm viewing window for convex probe
- ✓ 44-93 mm viewing window for linear probe
- ✓ 2.6 lbs (1.2 kg) weight, including battery
- ✓ 2-year warranty

Flexx **BY REPROSCAN**

The Ultimate Portable Ultrasound for Mixed and Equine Practice

The **FLEXX** is a versatile, portable ultrasound scanner designed for mixed animal practices and equine veterinarians. Offering complete flexibility with advanced features while remaining simple to operate, the **FLEXX** takes field ultrasound standards to the next level.

Engineered for durability, it's ideal for both fieldwork and intensive equine reproduction clinics. With a built-in screen, the **FLEXX** eliminates the need for additional monitors or goggles, although connects easily to the **2.0 Monitor** or **OJO's Goggles** and can also seamlessly connect wirelessly to your monitor or portable device via the **ReproScan Flexx App** — perfect for saving images for patient profiles, sharing field ultrasound images as part of patient histories and allows all participants of training sessions to watch live.

With multi-probe compatibility, the **FLEXX** supports everything from rectal convex probes for reproductive exams to small animal and tendon probes, making it a true all-in-one solution for veterinarians working across multiple species.

THE EVERYDAY ULTRASOUND

FEATURES

- ✓ Multiple interchangeable probe options
- ✓ Built-in monitor
- ✓ Built-in 6-hour lithium-ion battery
- ✓ Compatible with multiple viewing devices
- ✓ 8 preset exams per probe
- ✓ Rapid zoom
- ✓ Splash proof
- ✓ Freeze and CINE loop options
- ✓ Image storage capabilities
- ✓ Multiple measuring options

SPECS

- ✓ Wireless sender
- ✓ 6.5 in screen
- ✓ Image capture export to Flexx Android App
- ✓ 3lbs (1.36kg) weight, including battery
- ✓ VGA LEMO output
- ✓ 2-year warranty

PROBE OPTIONS

- ✓ 6.5 MHz Linear Rectal
- ✓ 4.0 MHz Convex Rectal
- ✓ 6.5 MHz C20 Micro-Convex
- ✓ 7.5 MHz L40 Linear T-Handle
- ✓ 3.5 MHz C60 Convex T-Handle

XTC

BY REPROSCAN

Built for the Large-Scale Cattle Veterinarian

The **XTC** is a unique portable, light weight cattle ultrasound scanner designed for extension arm ultrasound using the ReproArm or for arm-in specialised early reproductive examinations. The **XTC** is designed specifically for large-scale cattle operations, offering rugged reliability and superior performance in demanding environments. Optimised for high-volume use, it provides fast, accurate diagnostics, making it an essential tool for cattle veterinarians focused on efficiency and precision in herd management. The XT Model is also available with a Linear probe.

XTC

BY REPROSCAN

FEATURES

- ✓ Wireless capabilities with 2.0 monitor
- ✓ Interchangeable 6-hour lithium-ion battery
- ✓ Compatible with multiple viewing devices

- ✓ 4:3 or 16:9 aspect ratio
- ✓ 12-month warranty

RAM KIT OPTIONS

- ✓ Easy chute-side or stock-side mounting
- ✓ RAM claw add-on

Streamlined design allows for more peripheral vision and the GoPro™ mount allows for customisation for any environment.

FEATURES

- ✓ Large image on display
- ✓ Designed for comfort and durability
- ✓ Adjustable GoPro™ screws for personalized fit
- ✓ Silicone sunshade
- ✓ Splash proof

SPECS

- ✓ Rugged 9 pin LEMO connector
- ✓ VGA 854 x 480 display
- ✓ Lightweight
- ✓ 12-month warranty

ReproArm

BY REPROSCAN

Utilization of ReproArm technology reduces shoulder and arm strain, allowing for safer and easier ultrasound examinations. Also available with a Pistol Grip.

FEATURES

- ✓ Comfortable finger-grip handle
- ✓ Different sizes to fit facilities
- ✓ Mini ReproArm for small ruminant and camelid use

SPECS

Popular Sizes:

- ✓ Regular Arm: 32in 82cm (convex probe)
- ✓ Shorty Arm: 23in 60cm (convex probe)
- ✓ Mini Arm: 12in 30.4cm (linear probe)

Equipment Finance to assist your Investment:

We're proud to partner with QPF Finance Group to offer clients tailored finance solutions for our ReproScan equipment.

- **100% Funding Available:**
Finance up to the full value of your equipment.
- **Preserve Cashflow:**
No upfront costs
- **Convenient Security:**
Loans are secured against the equipment itself
- **Flexible Terms:**
Choose a repayment period between 1 to 5 years
- **Monthly Repayments**
Easy Manageable Budgeting
- **Income-Driven Repayments**
Use of equipment to reduce labour costs and increase income to fund payments

Protect your investment with our EXTENDED WARRANTY

Take peace of mind to the next level! With our Manufacturer's warranty and our Extended Warranty option ensures your ReproScan purchase is covered for up to 4 years. Simply select this option when finalising your order and you're all set!

Our Mission

We provide our customers with simple, durable, and affordable ultrasound equipment with excellent customer service and prompt in-house servicing and repairs. We offer equipment packages tailored to your specific needs.

By enhancing early pregnancy detection, reducing embryonic loss and improving diagnostic accuracy, we help optimise herd management and financial performance. Through advanced technology and comprehensive training, ReproScan Aus ensures veterinarians and producers can make informed decisions that elevate industry standards and drive sustainable success.

REPROSCANS

When in the future you are ready to upgrade your old ReproScan unit, we offer you a guaranteed trade-in value of at least 20% off your next new ReproScan Package.

- ✓ Get Guaranteed Value – Don't let your old equipment lose all value. Trade it in and save 20% on the latest model.
- ✓ Upgrade Hassle-Free – We offer Easy Finance Options so you can upgrade without any upfront payment.
- ✓ Stay Ahead with Reliable Equipment – Save 20% off a new Repro-scan Package with all the latest features ReproScan has to offer.

A horizontal banner advertisement for ReproScan. On the left, there is a black and white profile of a cow's head. Next to it is the "ReproScan" logo in a large, bold, black font. To the right of the logo, there is a collection of ReproScan ultrasound equipment: a yellow and black handheld unit, a long white probe, a blue handheld unit with a screen showing an ultrasound image, and a green handheld unit. Below the equipment, the text "Winner of the IAP Innovation Award at BeefEx" is written in a yellow, sans-serif font. At the bottom of the banner, the text "Easy - Convenient - Affordable" is written in a white, sans-serif font.
